Subject: Case Number: 22-10964 (MG)  
Unable to open a Coinbase account

Dear Your Honor;

Could you please help me get my liquid crypto distribution from Celsius?

I, Thomas Joseph Pick, am a Celsius Earn Creditor. I have a U.S.A. citizenship and passport. At 71 years old, I am retired and am a resident of Thailand.

It appears I am supposed to open a Coinbase account and receive my liquid crypto coin distributions of Bitcoin and Ethereum via a Coinbase account. However, I am unable to open a Coinbase account.

Attorney Aaron Colodny, from White and Case, had communicated with a member that Coinbase was now supported in Thailand. Where did he get that idea? As you can see from my attachments, when I try to create an account, the Coinbase website says things like: Country not supported currently. Invalid credentials. Reset your password. Blocked. I tried to sign into the Help Center, but was unable.

I have heard of people using X twitter. I do not know how to use X. I am afraid I might send them a KYC (know your customer) document on the public forum for all to see. I thought I saw a reading that said do not communicate with a company by a social media platform. X twitter, is a social media platform.

I am unable to get an email address of a human being at Coinbase, so I can email them. I would like a phone number, so I can talk to someone at Coinbase. I would prefer one person I could build a relationship at Coinbase with to handle my case to completion.

If Coinbase cannot service me, due to my living in Thailand, what alternatives can we develop? Binance has KYC. We could transfer the assets there. I have a Ledger hardware wallet. We could transfer my liquid crypto of BTC and ETH there.

If you sent me a \$US Dollar check, wired to my Bank of America account in New York, you would need to adjust the amount upwards significantly.

The price of the coins and tokens on January 16, 2024 was: BTC \$42,972.9948 ETH \$2,577.4752  
You made your calculations on the 16<sup>th</sup> of January, but now the price of both assets have gone up, so you have to recalculate and send more money.

Market prices on Thursday, 29 February 2024, at 08:00 pm = 20:00 Thailand time is:

BTC = \$62,661.00

ETH = \$3,473.28

So, a recalculation must be done to take into account the rise in the price of these crypto currencies.

Celsius already stole from us and bankrupted the company, and committed fraud. Now, they are trying to swindle us again. Our payouts are already meager compared to the bulk of my life savings I invested in Celsius. I believed in Alex Mashinsky and he cheated me! Now, Celsius is trying to cheat me again! Let the Earn Creditors try to make back some of our losses.

Simon Dixon spoke before your Honor in December 2023. Mr. Dixon explained about rug pulls. He emphasized the Earn Creditors need their liquid crypto back.

If you are going to give us a wire transfer into our bank, it must be at a recomputed price. We have to go back out on the market and buy back our BTC and ETH at much higher prices, if even possible, and there are additional fees involved.

Please, you Honor, can you help me and the other Earn Creditors get our settlement at a fair price? Coinbase is not working for me.

It is a long journey. It has not ended yet. Thank you for you and your team's efforts you have put in so far. I am happy we got out of Chapter 11. Now I would like my settlement, please.

Sincerely,

Thomas Joseph Pick- Earn Creditor
